This is a sample syllabus for EVR1001. Students should reference the section syllabus provided at the beginning of the semester for specifics regarding assignments and grade assignments.
INTRODUCTION to ENVIRONMENTAL SCIENCE  
EVR 1001 3 SEMESTER HOURS  
SYLLABUS AND COURSE OUTLINE, Spring SEMESTER, 2023  

NOTE: There are ___ Sections of this course. You are REQUIRED to come to the section that you are signed up for.  

Instructors: XXXXXXXXXXXXXX  
XXXXXXXXXXXXXXXX  

TA’s: XXXXXXXXXXXXXX  

Office hours: XXXXXXXXXXXXXXXXXXX  
XXXXXXXXXXXXXXXXXXXXXXXX  
XXXXXXXXXXXXXXXXXXXXXXXX  

Required textbook:  

Purpose/Objectives At the end of this class students:  
1. will be able to describe the relationships between components of the natural world and the effect of the built world upon it.  
2. will be able to analyze environmental problems and identify the risks caused by them.  
3. will have a basic knowledge of hazardous materials.  
4. will understand basic concepts of air and water pollution, especially nutrient pollution.  
5. will be able to describe solid and liquid waste disposal and treatment issues.  

In addition  
Scientific Method and Reasoning.  
Students will demonstrate the ability to:  
• think critically and cogently about causal relationships with scientific reasoning.  
• assess previous experimentation and published scientific results.  
• critically examine and evaluate scientific observation, hypothesis or model construction.  
• articulate a variety of issues created by the complex interactions among science, technology, and society.  
• use scientific perspectives to evaluate contemporary problems facing society.  

This Class will be a combination of independent reading of the textbook and lectures by the instructors.

All final exam schedules are available at this weblink:
http://registrar.fsu.edu/registration_guide/spring/exam_schedule/

ALL Students will find it necessary to take detailed notes during lectures/videos and will be encouraged to contribute to class discussion. As needed the instructors will provide useful literature to read as well as the suggested text in the table above. Students will also be expected to familiarize themselves with nomenclature used in discussions and lectures. Nomenclature may be presented as vocabulary items on quizzes and tests.

Course Evaluation by Point System: Class attendance is required. Your grade will be determined from 5 weighted components

- Class attendance & participation (5 points per class, 140 points total)
- Quizzes (generally given every other Thursday based on the previous 2 weeks material) (20 points each – 140 points total). Quizzes will be in weeks 2, 4, 6, 8, 11, 13 and 15.
- Midterm (140 points)
- Final (210 points)
- Scientific Reasoning assignment (70 points)

Total # points = 700 –

A=>92.5% (>647 points), A-=>90% (>630 points)
Class attendance and participation are mandatory. Attendance & participation will be assessed using Canvas. Throughout each lecture, questions will be asked using the Canvas system. Questions can be answered using a smart phone and Canvas, a tablet or laptop. We will give full participation credit for every question that you answer (whether correctly or incorrectly). We will give 150% participation credit for every question that you answer correctly. This means that if you correctly answer every question, you will receive 210 out of 140 participation points. This basically means that you could get a 67% on the final and still receive a 100% overall in the class. It really pays for you to come to class and pay attention!

Scientific Reasoning Assignment.
Students will read a controversial scientific paper and break into groups to discuss it. In this discussion they will think critically about the causal relationships, critically examine the hypotheses and model construction, and articulate the issues and tensions created between science and society, and evaluate the work in terms of the contemporary problems facing society. Each student will write a 5 page paper expounding on these concepts following the discussion groups. Each paper will be evaluated by the TAs and course instructor. The papers will also be examined by a teaching assistant or by the instructor to check for duplication. This assignment will be given in week 8, discussed in class in week 10 and submission is required by 5pm on Tuesday April 11 via Canvas.

Grading of this assignment will be based on the following rubric. Where 4 is A, 3 is a B, 2 is a C and 1 is a D.
<table>
<thead>
<tr>
<th>Scoring level</th>
<th>Scientific Reasoning</th>
<th>Evaluate model and assumptions</th>
<th>Interaction of science and society and problems facing society from a scientific perspective</th>
</tr>
</thead>
<tbody>
<tr>
<td>4. Accomplished</td>
<td>Able to clearly demonstrate scientific reasoning, understands what a hypothesis is and how they are tested.</td>
<td>Clearly understands and articulates what a scientific model is and how they are applied.</td>
<td>Clear articulates the problems facing society from a scientific perspective</td>
</tr>
<tr>
<td>3. Competent</td>
<td>Shows more advanced understanding of hypotheses and testing.</td>
<td>Shows clear comprehension of basic scientific concepts when applied to model construction</td>
<td>Shows comprehension of the interaction of science and society</td>
</tr>
<tr>
<td>2. Developing</td>
<td>Has some comprehension of scientific reasoning, understands what a hypothesis is and how they are tested.</td>
<td>Able to state basic principles of a model</td>
<td>Provides simplistic or incomplete explanations</td>
</tr>
<tr>
<td>1. Beginning</td>
<td>Not able to clearly state what scientific hypotheses are or how they are tested.</td>
<td>Does not understand concept of a model</td>
<td>Does not understand the difference between scientific approaches and political/religious solutions</td>
</tr>
</tbody>
</table>

Note that attendance, quizzes and assignment are similar in weight to the final & midterm scores. Often, the main factor that differentiates scores (A’s from C’s) is attendance & participation.

**Policy on missing class.** Everyone will have excellent reasons to miss a class on occasion. Generally, we would prefer not to be in a position of judging which reasons are acceptable, and which are not. Since we have made it possible to achieve full participation points (by correctly answering in class questions), even if some classes are missed, we will not be giving participation points to students who have to miss class.

**Policy on making up quizzes.** We will give 7 quizzes. Makeup will typically occur on Friday afternoons, from 2:30 to 3:30pm. Make-up’s will not be given in advance and advance notice must be given that the student will miss class. To get a makeup quiz, you must have a valid reason, like illness to yourself or a family member, something reasonable, and you should contact the TA as noted above responsible for Canvas quiz make-up.

**Policy on final grades.** All grades are final and not subject to negotiation.

READING ASSIGNMENTS (tentative, subject to change). Tentative reading assignments are shown in the syllabus. However, specific reading assignments will be given during the preceding lecture (and posted to the online course
management system). Please do your reading prior to coming to class (this will help you to earn participation points, which are a large portion of your grade).

**Reasonable Accommodation**

Students with disabilities needing academic accommodations should:
1. Register with and provide documentation to the Office of Accessibility Services (OAS).
2. Bring a letter to the instructor from the OAS indicating you need academic accommodations. This should be done within the first week of class. (This syllabus and other class materials are available in alternative format upon request.)

**Academic Honor Code** see [http://fda.fsu.edu/Academics/Academic-Honor-Policy](http://fda.fsu.edu/Academics/Academic-Honor-Policy)

Students are expected to uphold the Academic Honor Code published in The Florida State University Bulletin and the Student Handbook and on line at the above web address. The Academic Honor System of Florida State University is based on the premise that each student has the responsibility:
(1) to uphold the highest standards of academic integrity in the student’s own work;
(2) to refuse to tolerate violations of academic integrity in the University community, and
(3) to foster a high sense of integrity and social responsibility on the part of the University community.

**University Attendance Policy**: Excused absences include documented illness, deaths in the family and other documented crises, call to active military duty or jury duty, religious holy days, and official University activities. These absences will be accommodated in a way that does not arbitrarily penalize students who have a valid excuse. Consideration will also be given to students whose dependent children experience serious illness.

**Academic Success**

Your academic success is a top priority for Florida State University. University resources to help you succeed include tutoring centers, computer labs, counseling and health services, and services for designated groups, such as veterans and students with disabilities. The following information is not exhaustive, so please check with your advisor or the Department of Student Support and Transitions to learn more.

**Confidential campus resources**

Various centers and programs are available to assist students with navigating stressors that might impact academic success. These include the following:

Victim Advocate Program
University Center A,
Room 4100, (850) 644-7161,
Available 24/7/365,
Office Hours: M-F 8-5
[https://dsst.fsu.edu/vap](https://dsst.fsu.edu/vap)

Counseling & Psychological Services
Askew Student Life Center,
2nd Floor,
942 Learning Way
(850) 644-8255
[https://counseling.fsu.edu/](https://counseling.fsu.edu/)

University Health Services
Health and Wellness Center
(850) 644-6230
[https://uhs.fsu.edu](https://uhs.fsu.edu)
**Academic Honor Policy:** The Florida State University Academic Honor Policy outlines the University’s expectations for the integrity of students’ academic work, the procedures for resolving alleged violations of those expectations, and the rights and responsibilities of students and faculty members throughout the process. Students are responsible for reading the Academic Honor Policy and for living up to their pledge to “. . . be honest and truthful and . . . [to] strive for personal and institutional integrity at Florida State University.” (Florida State University Academic Honor Policy, found at: [http://fda.fsu.edu/Academics/Academic-Honor-Policy](http://fda.fsu.edu/Academics/Academic-Honor-Policy))

**Americans With Disabilities Act:** Students with disabilities needing academic accommodation should: (1) register with and provide documentation to the Office of Accessibility Services; and (2) request a letter from the Office of Accessibility Services to be sent to the instructor indicating the need for accommodation and what type; and (3) meet (in person, via phone, email, skype, zoom, etc...) with each instructor to whom a letter of accommodation was sent to review approved accommodations. This syllabus and other class materials are available in alternative format upon request. For the latest version of this statement and more information about services available to FSU students with disabilities, contact the:

Office of Accessibility Services  
874 Traditions Way  
108 Student Services Building  
Florida State University Tallahassee, FL 32306-4167  
(850) 644-9566 (voice)  
(850) 644-8504 (TDD)  
oas@fsu.edu  
https://dsst.fsu.edu/oas

**Free Tutoring from FSU** For tutoring and writing help in any course at Florida State University, visit the Academic Center for Excellence (ACE) Tutoring Services’ comprehensive list of tutoring options - see [http://ace.fsu.edu/tutoring](http://ace.fsu.edu/tutoring) or contact tutor@fsu.edu for more information. High-quality tutoring is available by appointment and on a walk-in basis. These services are offered by tutors trained to encourage the highest level of individual academic success while upholding personal academic integrity.

**Syllabus Change Policy**  
Except for changes that substantially affect implementation of the evaluation (grading) statement, this syllabus is a guide for the course and is subject to change without advance notice.

**Liberal Studies**  
This course has been approved to meet FSU’s Liberal Studies **Natural Sciences** requirement and helps you become an effective interpreter of scientific results and a critical analyst of claims about the natural world.

By the end of this course, students will:

1. Pose questions or hypotheses based on scientific principles.
2. Use appropriate scientific methods and evidence to evaluate claims or theoretical arguments about the natural world.
3. Analyze and interpret research results using appropriate methods.
