This is a sample syllabus for MGF1106. Students should reference the section syllabus provided at the beginning of the semester for specifics regarding assignments and grade assignments.
Mathematics for Liberal Arts I
Traditional Delivery

(3 h)
MGF1106

Catalogue Description

This course covers set theory; symbolic logic; counting principles; permutations and combinations; probability; statistics; geometry; applications and history of mathematics. Recommended background: two years of high school algebra. Course is not intended for students whose programs require precalculus or calculus courses.

Pre-req.
MAT 1033 with a grade of "C-" or better or a suitable mathematics examination placement score.

Learning Objectives

At the completion of this course, students will be able to:
1. Use rules of logic to evaluate claims you face and construct more convincing arguments of your own.
2. Logically analyze outcomes and statistics by numerically describing situations and their outcome likelihoods.
3. Use Venn Diagrams to visualize survey results, and to analyze and answer questions about overlapping categories of information.
4. Apply area and volume formulas to compute areas and volumes and solve 2D and 3D application problems.

This course has been approved to meet FSU’s Liberal Studies Quantitative and Logical Thinking requirements and helps you become a critical analyst of quantitative and logical claims.

In order to fulfill the State of Florida’s College mathematics and computation requirement the student must earn a “C–” or better in the course.

By the end of this course, students will:

1. Select and apply appropriate methods (i.e., mathematical, statistical, logical, and/or computational models or principles) to solve real-world problems.
2. Use a variety of forms to represent problems and their solutions.

Course Assignments and Evaluation
Homework (10%) Students will complete several Homework assignments each week. At least one of the weekly homework assignments will require lecture attendance and group collaboration. The student may use online resources, their notes, and collaborate with peers for completion of graded Homework.

Quizzes (30%) Students will complete ten Quizzes in the Lab, one each non-Test week. Students may use scrap paper and the approved calculator for the Lab Quizzes.

Unit Tests (45%) Students will complete Three Unit Tests in the Lab. Use of scrap paper and the approved calculator are permitted but no other resources are permitted.

Final Exam (15%) The Final Exam is cumulative. Use of scrap paper and the approved calculator are permitted but no other resources are permitted.

Class Attendance Attendance is required for 3 hours of lecture meeting time and 1 hour of lab. Unexcused absence from any lecture or lab results in a zero score for any missed assignment due in that meeting.

Excused absences are defined by the FSU Attendance Policy (see below)

Missed Work Policy

Homework: Unexcused missed Homework will receive a zero. Excused missed Homework can be rescheduled within 48 hours of the assignment deadline.

Quiz: Unexcused missed Quizzes receive a score of 0 points and cannot be made up. Excused missed Quizzes will be omitted from the Quiz average.

Tests: A maximum of one unexcused missed Unit Test will be rescheduled with Instructor approval, within 48 hours of the missed test, with a 20% penalty. Subsequent unexcused missed Unit Tests will be given a zero. An excused missed Unit Test or Final Exam will be rescheduled as soon as possible.

Final Exam: An unexcused missed Final Exam will be rescheduled with Instructor approval by the end of exam week, with a 25% penalty. An excused missed Final Exam will be rescheduled as soon as possible.

Grading

<table>
<thead>
<tr>
<th>Grade</th>
<th>Range</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>100% to 93%</td>
</tr>
<tr>
<td>A-</td>
<td>&lt; 93% to 90%</td>
</tr>
<tr>
<td>B+</td>
<td>&lt; 90% to 87%</td>

Pearson My Lab Math access, with eText for Robert F. Blitzer, Robert (2019). Thinking Mathematically. You will get access to this material by using the access code sent to your email account from Follett.

Lecture Schedule

Week 1
- Introduction to Logic
- Expressing statements and negations using symbols
- Quantifying statements and negating them

Week 2
- Compound Statements and Logic Connectives
- Symbolizing statements with parenthesis in English
- Using dominance of connectives
- Truth Tables for negation, conjunction, disjunction

Week 3
- Truth Tables for the Conditional and the Biconditional
- Equivalent Statements and Variations of the Conditional Statement

Week 4
- Negations of the conditional statement
- DeMorgan’s Law
- Building Arguments
- Common Form Arguments (valid and invalid)
- Using Truth Tables to test argument validity

Week 5
- Euler diagram representation of statements
- Applying Euler diagrams to test argument validity
- Unit I Review

Unit I Exam

Week 6
- Introduction to Counting Methods and Probability Theory
- The Fundamental Counting Principle
- Permutations

Week 7
- Combinations
- Fundamentals of Probability

Week 8
- Probability with the FCP, Permutations and Combinations

Week 9
- Events involving Not and Or

Week 10
- Events Involving And
Unit II Review

Unit II Exam

Week 11  Venn Diagrams and Set Operations
         Survey Diagrams
Week 12  Survey Diagrams
         Measuring Area and Volume
Week 13  Area and Circumference
         Volume and Surface Area
Week 14  Volume and Surface Area
         Unit III Review

Unit III Exam

Week 15  Final Exam Review

University Attendance Policy

Excused absences include documented illness, deaths in the family and other
documented crises, call to active military duty or jury duty, religious holy days, and official
University activities. These absences will be accommodated in a way that does not
arbitrarily penalize students who have a valid excuse. Consideration will also be given to
students whose dependent children experience serious illness.

Academic Honor Policy

The Florida State University Academic Honor Policy outlines the University's expectations for the
integrity of students' academic work, the procedures for resolving alleged violations of those
expectations, and the rights and responsibilities of students and faculty members throughout the
process. Students are responsible for reading the Academic Honor Policy and for living up to their
pledge to "...be honest and truthful and... [to] strive for personal and institutional integrity at
Florida State University." (For more details see the FSU Academic Honor Policy and procedures for
addressing alleged violations (http://fda.fsu.edu/academic-resources/academic-integrity-and-
grievances/academic-honor-policy).)

Americans With Disabilities Act

Florida State University (FSU) values diversity and inclusion; we are committed to a climate of
mutual respect and full participation. Our goal is to create learning environments that are
usable, equitable, inclusive, and welcoming. FSU is committed to providing reasonable
accommodations for all persons with disabilities in a manner that is consistent with academic
standards of the course while empowering the student to meet integral requirements of the
course.
To receive academic accommodations, a student:
must register with and provide documentation to the Office of Accessibility Services (OAS);  
must provide a letter from OAS to the instructor indicating the need for accommodation and what type; and,  
should communicate with the instructor, as needed, to discuss recommended accommodations. A request for a meeting may be initiated by the student or the instructor. 

Please note that instructors are not allowed to provide classroom accommodations to a student until appropriate verification from the Office of Accessibility Services has been provided. 

This syllabus and other class materials are available in alternative format upon request. For more information about services available to FSU students with disabilities, contact the Office of Accessibility Services (Tallahassee Campus)

Free Tutoring from FSU  

On-campus tutoring and writing assistance are available for many courses at Florida State University. For more information, visit the Academic Center for Excellence (ACE) Tutoring Services' comprehensive list of on-campus tutoring options - see the Academic Center for Excellence (ACE) Tutoring Services' website (http://ace.fsu.edu/tutoring) or contact tutor@fsu.edu (mailto:tutor@fsu.edu). High-quality tutoring is available by appointment and on a walk-in basis. These services are offered by tutors trained to encourage the highest level of individual academic success while upholding personal academic integrity. 

Syllabus Change Policy  

"Except for changes that substantially affect implementation of the evaluation (grading) statement, this syllabus is a guide for the course and is subject to change with advance notice."
Confidential campus resources:
Various centers and programs are available to assist students with navigating stressors that might impact academic success. These include the following:
